

2Dec2016: Statement from Friends of the Farm Board of Directors

We were very disappointed to learn that despite the National Capital Commission's recommendation of Tunney's Pasture, the Federal Government will offer land from the Central Experimental Farm to the Ottawa Hospital for a new Civic Campus.

We are thankful for all of the work done by so many people to draw attention to the value of the Farm as a place of national heritage and research. The Friends understands there will always be important land needs to be considered but continually encroaching on National Historic Sites should not be the easy answer.

The Friends of the Central Experimental Farm will continue to support the importance of both the ongoing work and public areas of the Farm.

Comments and concerns can be sent to president@friendsofthefarm.ca
